

SEAMLESS SERVICING

Accelerate Servicing
Capabilities with
CLARIFIRE®

Servicing operations that have speed and complexities automated. That is the power of CLARIFIRE Workflow Automation!

CLARIFIRE
BRIGHTER AUTOMATION®

Seamless Servicing is a Reality

CLARIFIRE is helping a growing number of mortgage servicers power through an increasingly complex environment while ensuring that borrowers get the attention and assistance they need. Will you be next? Untether your organization from the constraints of paying for point solutions and constant workout rule updates. Automate change through smart logic delivered seamlessly through full service SaaS [CLARIFIRE Workflow Automation](#).

**Better Approach.
Better Results.
Better Software.**

If you are looking to:

- ◆ Get out of the workout rules business and let experts provide the software needed to get the job done.
- ◆ Refresh your strategy with operational control and flexibility that saves time and money.
- ◆ Provide borrowers with robust, auditable, and instantaneous access to information.
- ◆ Readily identify and mitigate trends, making accountability inherent to your operations.
- ◆ Minimize risks associated with changing industry requirements, operational handoffs, and unnecessary quality control checks.

Use CLARIFIRE Workflow Automation to:

- ◆ Complement your existing systems with scalable process automation.
- ◆ Provide customers 24/7 self-service access, with no-touch straight-through processing and a modern mobile design.
- ◆ Integrate with third-party providers and keep all users working in one application seamlessly.
- ◆ Deliver extensible and flexible automation that is designed to digitize your servicing operations.

**Let CLARIFIRE
do the heavy lifting.
Automation
makes it easy.**
